

AnaJet®

ARTprint™ Custom Canvas Printing

With AnaJet® Apparel Printers, you can now reproduce Fine Arts, Graphic Prints and Photos on Canvas with stunning results. Print on ARTprint Canvas™ and coat it with AnaJet ARTprint Texture Coat™ for an oil painting effect. Everyone will ask "is that an original oil painting?" ARTprint Texture Coat™ is a protective finish that creates the look and feel of a real oil painting.

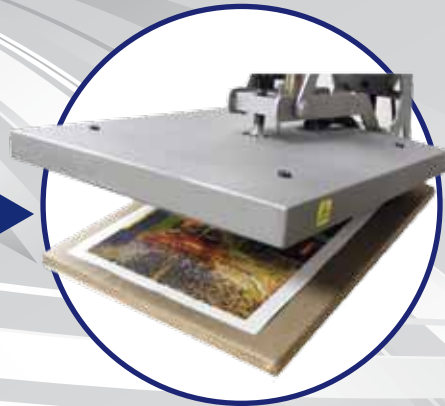

This is another way to profit from AnaJet® Apparel Printers. When you do not use your printer for apparel printing, keep printing non-copyrighted Fine Arts and Graphics for home decoration. You can sell them at art fairs, decorative art stores and hotels. You now own a decorative art reproduction facility when the printer is not busy with custom garment printing business.

AnaJet ARTprint™ Canvas Printing

Step 1: Print your image on ARTprint Canvas™.

Step 2: Heat treat for 35 seconds to cure.

Step 3: Apply ARTprint Texture Coat™.

Finished Product

ARTprint Texture Coat™ turns a print into a work of art. A thin coat will give you a crackle finish while a thick coat will reproduce the texture of an oil painting.

P/N TCMT-1 Matt Finish

P/N TCSG-1 Semi Gloss Finish

Starter Package

The ARTprint Kit comes with everything you need to create a print ready for framing: Canvas, Matt and Semi Gloss Texture Coats, Brushes, Rollers, Backing Boards, Spray Adhesive and 50 Graphics to get you started.

Order: P/N AASP (\$625.00)

Instructions

1. Place ARTprint Canvas™ onto the AnaJet print table.
2. Print image onto canvas in desired size.
3. Cure with heatpress for 35 seconds at 330 degrees.
4. Apply ARTprint Texture Coat™ to the printed area. The desired texture is achieved by how the coat is applied. For an oil paint look, apply in dabbing strokes with a paint brush. For a crackle finish, apply finish coat with a roller. Set aside and let dry. A second coat may be needed to achieve the thick texture of an oil painting. See video.
5. Once coat has dried, matt or frame the art as desired.
